## MyIPFS Script fast Setup

**MyIPFS** has been designed to be used by anyone, without specific technical experience and above all, without requiring server-side resources. This amazing amazing Script will give you **access to all the potential of the IPFS Decentralized Global Network**, in a few minutes and without having to have technical skills or experience.

**Upload Your Files to the major IPFS Storage Providers** in a few moments, get the unique CID of each File, delete it or share it with whoever you want. Keep under control the space used, or change the accesses of the IPFS Providers in a Click!

### Setup step by step:

1. Purchase the Script on the [Buy Now MyIPFS Script](#)
2. **Upload all the Files** to your Web Root, Subdomain or Folder
3. Login at eg. [www.MyDomain.com/login](#)
4. **Change** your Login Credentials
5. Add your **IPFS API**

### Done!

Now you are **ready to Upload, Download and Delete** your Files on the **IPFS Network**!

The advertisement banner for Hostwinds features a dark blue background on the left with the Hostwinds logo and the text 'UNMANAGED LINUX SSD VPS'. A green diagonal band in the center lists features: 'SSD', 'INSTANT SETUP', 'INSTANT SCALABILITY', and '24/7 LIVE SUPPORT'. The right side of the banner is dark blue with a 'LEARN MORE' button, 'Starting At', and 'Only \$4.99/mo'.
